

New York 4mo 15th 1845

My dear friend

W Lloyd Garrison

I write now just to say that we shall expect thee to sojourn with us during the ensuing Anti-Slavery Anniversary. It will give us pleasure to accommodate thee. About ten days ago I went to Albany and on my way there I took a heavy cold which^{is} attended with a distressing cough and have been confined to my house for more than a week.

With love to thyself thy wife and your dear little ones

I am affectionately

Thy friend

Isaac T. Hopper
